

# Field Security Plugin Security Advisory 2016-01-11

## Issue 1 (ref# JFSSUP-193)

Under some circumstances a value of a hidden field may be exposed in e-mail messages generated by JIRA.

This issue affects all JFS versions for JIRA 6.0-7.0 starting from JFS 1.4.17\_60 and up and is fixed in JFS 1.4.32 for JIRA 6.0-7.0.

## How to fix

### JIRA 6.0 and later

Upgrade to JFS 1.4.32.

1. [Ensure support & maintenance is active](#) for your license.
2. Navigate to [Downloads page](#)
3. Download JFS 1.4.32 plugin JAR file according to your JIRA version
4. Upgrade the plugin using JIRA Universal Plugin Manager
5. Restart your JIRA instance (Note: this is mandatory!)
6. There is no need to re-apply the JFS patch

Please contact [support@quisapps.com](mailto:support@quisapps.com) in case of any questions.
